PROFESSIONAL SUMMARY

Driven, detail-oriented Cloud and Software Engineer with a strong background in Cloud Computing, IoT, and system administration. Demonstrates verified experience managing IT infrastructure, troubleshooting hardware/software, and optimizing network deployments in municipal enterprise environments. Proficient in full-stack web application development, automated workflows, and multi-cloud platforms (AWS, GCP, Azure). Eager to contribute technical troubleshooting skills, a proactive work ethic, and data management expertise to a dynamic ICT and cloud engineering team.

EDUCATION

Bachelor of Science (Hons) in Cloud Computing and Internet of Things (IoT)

University of Zimbabwe (UZ) | 2020 - 2024

Relevant Coursework: Cloud Architecture, Network Security & Administration, Database Systems, Linux/Unix Administration, Software Engineering, Enterprise IT Infrastructure

TECHNICAL SKILLS & COMPETENCIES

- Core ICT & Systems Administration: Linux/Ubuntu Server, Windows OS, Active Directory concepts, Network Protocols (TCP/IP, DNS, VPN), System Troubleshooting, Hardware & Software Maintenance
- Cloud Platforms & Virtualization: Amazon Web Services (AWS EC2, S3), Google Cloud Platform (GCP), Microsoft Azure, Docker Containerization, Virtual Server Management
- Database Administration & Storage: PostgreSQL, Cloud Firestore (Firebase), Elasticsearch, Oracle Database fundamentals, SQL Query Optimization, Data Backup & Integrity Management
- Software Development & Automation: Python, React, Next.js, Node.js, RESTful APIs, Git/GitHub Version Control, Linux Shell Scripting, Automation Workflows
- Productivity & Office Tools: Microsoft Office Suite (Word, Excel, PowerPoint, Outlook), Technical Documentation, Reporting
- Professional Attributes: Analytical Problem-Solving, Corporate Collaboration, Initiative, Adaptability

PROFESSIONAL EXPERIENCE

Data Clerk - Grosvenor Security, Chinhoyi | Jan 2025 - Dec 2025

- Managed and digitized physical records into secure digital storage systems, streamlining document retrieval and data integrity across the organization
- Ensured data accuracy by verifying and updating daily logs and reports, identifying and correcting discrepancies in a timely manner
- Assisted with generating weekly security activity reports for management review, consolidating field data into actionable intelligence summaries
- Supported the IT team with basic troubleshooting and document management system maintenance, bridging operational and technical functions

ICT Intern - Harare City Council | 2023

- Assisted in the maintenance, monitoring, and troubleshooting of corporate network infrastructure and endpoint devices across municipal departments
- Handled software installations, operating system upgrades, and standard hardware diagnostics to ensure continuous operational uptime
- Collaborated with senior system administrators to manage localized user databases and troubleshoot hardware-to-software connectivity issues

CERTIFICATIONS

- Oracle Database Foundation Certificate
- Microsoft Certified: Azure AI Fundamentals (June 2026)
- Associate Cloud Engineer Track - Stage 2 Qualifier (Get Certified Program, GCP) (June 2026)
- AI Agent Orchestration Framework (GEAR) - Scalable AI Integration & Architecture (2026)

KEY PROJECTS

Self-Hosted AI Companion & Automation Server (AWS EC2) | 2026

- Provisioned and managed a secure Ubuntu Linux server environment on AWS EC2 to host self-contained automated services
- Configured system daemons, security group rules, and API endpoints, maintaining consistent system availability & resource efficiency

Enterprise Web Applications & Cloud Deployments | 2025-2026

- Developed and deployed scalable full-stack web applications using Next.js, Vite, and Firebase Cloud Firestore
- Managed continuous deployment pipelines via Vercel, ensuring fast load times and optimized database queries

VOLUNTEER EXPERIENCE

Verified ICT & Operations Volunteer

Confederation of African Football (CAF) Volunteer Platform | Sept 2025 - Present

- Supported operational workflows and technical communication for international tournament volunteer coordination
